

## Sharing Your Story – Discussion with the contact when calling before the tour

- How many Alzheimer's patients are you bringing?
- How many care-givers/staff/friends?
- How many wheelchairs will be required?
- What stage Alzheimer's are the attendees?
- If applicable, divide the group beforehand
- What time will the bus arrive following the tour?

A question for Sheila and Jane: is there a place in the museum to send an extremely restless or agitated person and "friend" if finishing the tour is inappropriate?

Possibly the café?
